Prayer Points

This week we are praying for -

Our church – For us to add to our faith with good character, spiritual understanding, alert discipline, passionate patience, reverent wonder, warm friendliness and generous love (2 Peter 1 MSG).

Our community – That together with our small groups and ministry teams we can share the good news of Jesus with our neighbours and friends.

Our city – That Lifewell Conference would impact our city for the glory of God and through people being reconciled to Him.

Send “I will pray” + “full name” + “email or mobile” to prayer@enfieldbaptist.com.au to join us every week

Reminder Notices/Activities for Newsletter

All emails or notices are to be sent to Vicki no later than **3pm Tuesdays**, if you need any activity or event advertised in the EBC newsletter. Thankyou

Impossible to ignore

The Bible's very first words are about intelligent design - “In the beginning God created the heavens and the earth.” Genesis 1.1.

And Psalm 19.1-4 describes the massive amount of information we have about all the design that is evident in the created world—“The heavens declare God's glory, and the firmament shows his handiwork. Day unto day utters speech, and night unto night reveals knowledge. There is no speech nor language where their voice is not heard. Their line has gone out through all the earth, and their words to the end of the world.”

Surely, all this is impossible to ignore!

So, **first**, because of such vast enlightenment, God holds us responsible for believing in him. His Word says that unbelief is without excuse. Romans 1.20.

Second, unbelievers otherwise face the difficult task of deciding that matter, of its own accord, created reason and logic and intelligence! Matter, on its own, created understanding and comprehension! Matter, unwittingly created purpose, and produced living creatures!

Third, do our schools teach that all design comes from randomness? I hope not. That's not only absurd, it's also bad science. In the meantime, how powerfully God's supporting evidence demonstrates his marvellous creativity.

The very nature of the universe which science reveals encourages our belief in God.
